

## Engineered Products for Steam Solutions

Large inventory of stock for quick turnaround and emergency services when needed.

### STEAM TRAPS

Thermodynamic, Thermostatic, Float & Thermostatic, Inverted Bucket, Universal Connectors & Modules, Clean Steam, Bi-Metallic, Manifold, Radiator, Diffusers and Test Valves.

### CONDENSATE PUMPS

Standalone Non-Electric Pressure Motive Pumps, Sump Drainers, Pump-Trap Combinations, Standard & Customized Skid-Mounted Systems, Electric Condensate Pumps, Pump Accessories.

### CONTROL VALVES

Pneumatically-Actuated, Electrically-Actuated, Valve Positioners, I/P Transducer, Air Filter & Regulators, RTD & Thermocouple Temperature Sensors, Thermowells, Electronic PID Controllers.

**FABRICATION • SPECIALTIES • SERVICES**

## HOT WATER HEATERS

The Heat Miser is an Instantaneous Steam to Water Heater which produces hot water from steam. Eliminating the need for large hot water storage tanks and saves significant energy.

## REGULATORS

Pressure Reduction, Temperature Control, Pilot-Operated, Direct-Operated, Piston-Actuated, Back-Pressure Relief, Noise Attenuators.

## VALUE ADDED SERVICES:

- Steam Trap Surveys
- Complete Steam System Audits for Energy Savings
- Non Invasive Flow Meter Testing for Heat Exchanger Applications for Sizing and System Control

301 Meadow Rd. Edison NJ, 08817  
(732) 985-5000

600 Jersey Ave. Gloucester City NJ, 08030  
(856) 212-0050
